### CLASSES.

Classes are formed in the school outside of the regular course somewhat according to the wants of the students; but classes beginning with the school year, usually continue from one term to another without change.

It is recommended that those purposing to graduate in the Elementary or Scientific course should pursue Latin or the Modern Languages at least one year.

The books used in German are Woodbury's Method, Soden's Reader, Works of Goethe, and others.

In French, Fasquelle's French Course, French Reader, French, Dialogues, Corinne, Piccola. The course embraces more in Modern Languages.

It is very desirable to form all classes in the languages the first term of the school year, and that those commencing any language should continue at least one year.

### EXAMINATIONS.

The examinations for graduation are conducted by the Faculty of the School, and by a Board of examiners.

The Faculty first examine the candidates, and if found qualified they refer them to the Board.

The Board of Examiners consist of such Principals of the State Normal Schools as may be designated by the Superintendent of Common Schools; and the examinations are to be conducted in the presence of the State Superintendent, and the County Superintendents of the Normal School District in which the school is located.

A thesis upon some educational subject will be required as a part of the examination.

### STATE APPROPRIATIONS.

#### TO STUDENTS AND GRADUATES.

By a recent Act of the Legislature, the following appropriations are made by the State to Normal Students and Graduates:

1. Each Student over *seventeen years* of age, who shall *sign a paper* declaring his *intention* to teach in the Common Schools of the State, shall receive the sum of *FIFTY CENTS per week* towards defraying the expenses of tuition and boarding.
2. Each Student over *seventeen years* of age, who was *disabled in the military or naval service* of the United States, or of Pennsylvania, or whose *father lost his life* in said service, and who

shall sign an agreement as above, shall receive the sum of ONE DOLLAR per week.

3. Each student who *upon graduating* shall sign an agreement to teach in the Common Schools of the State *two full years*, shall receive the sum of FIFTY DOLLARS.

4. Any student to secure these benefits must attend the School at least one term of twelve consecutive weeks. These benefits are to be deducted from regular expenses of board and tuition.

### DIPLOMAS.

A student graduating in the Elementary Course, will receive a diploma, in which will be named the branches he has studied, and by which he will be constituted BACHELOR OF THE ELEMENTS; the Diplomas of those graduating in the Scientific and Classical Courses, will enumerate the distinctive branches of these Courses, and constitute their holders, respectively, BACHELORS OF THE SCIENCES, and BACHELORS OF THE CLASSICS.

Regular graduates who have continued their studies for two years, and who have practiced their profession during two full annual terms in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners, a certificate of good moral character and skill in the Art of Teaching from the Board or Boards of Directors in whose employ they taught, countersigned by the proper County Superintendent, may receive second Diplomas, constituting them MASTERS in the several studies embraced in the Course in which they graduated, and conferring upon them corresponding professional degrees, as follows:

#### **Teachers of Elementary Didactics.**

#### **Teachers of Scientific Didactics.**

#### **Teachers of Classical Didactics.**

The Normal School law makes it the duty of the authorities of the Normal Schools to grant Diplomas or State Certificates to actual Teachers in Common Schools, without their having attended the Normal Schools as students. The following are the conditions upon which these Diplomas will be granted:

1. Each applicant must be 21 years of age, of good moral character, and have taught successfully during three consecutive terms in a common school or in common schools in this State; the proof of age to be the declaration on honor of the applicant; and of moral character, and the satisfactory discharge of the requisite terms of teaching, a certificate from the proper Board or Boards of Directors, signed by the President

and Secretary and countersigned by the proper County Superintendent or Superintendents.

2. The examinations to be in the Elementary, Scientific, or Classical Course, as the applicant may select, according to the list of studies as printed in the circulars of the State Normal Schools, and approved by the Superintendent of Common Schools, or in such other studies as may by the Board of Examiners be deemed equivalent.

3. Any person obtaining a certificate in the Elementary or Scientific Course, may, at the next or any succeeding annual examination, be examined for the higher course, and obtain the proper certificate.

4. Each applicant to prepare and present to the Board of Examiners an original thesis on some professional subject, of not less than six folio pages of manuscript, to be retained at the school where the examination takes place.

5. The examination and certificate to be without expense to the applicant, and the certificate to be full evidence of qualification to teach the branches therein named, in any part of the State, without further examination.

6. Practical teachers attending examinations at State Normal Schools, for the purpose of procuring State Certificates, should be examined separately from the regular students, and both the Board of Examiners and the Faculty of the school at which the examination is held should take part in the examination, all being required to sign the certificate.

All the Diplomas are authorized and furnished by the State, and exempt those who hold them from any further examination by authorities acting under the provisions of our Common School laws.

#### *APPLICATION FOR TEACHERS.*

Many Principals of Academies and Seminaries, and Directors of Common Schools apply to us for Teachers. We are always glad when we can answer such requests by furnishing good teachers, but we are better able to do so near the close of each term. Our friends must not suppose, however, that *all* persons who attend our school for three to six months are made good teachers.

We hold ourselves responsible only for graduates.

## EXPENSES.

## NO EXTRA CHARGE.

Students' Rooms are furnished with Stoves, Chairs, Tables, Stands, Pails, Bedsteads, Mattresses, Pillows and one Comfortable.

Students boarding in the building furnish their lamps, mirrors, wash-bowl and pitchers, napkins, towels, pillow slips, sheets and one comfortable, which, together with all clothing, should be distinctly marked with the full name.

All bills (except music, drawing and painting bills, which are settled with the Professors of the respective departments,) must be settled with Prof. CHAS. H. VERRILL, who acts in behalf of the Trustees, to whom all applications for rooms, or admission to the school should be made.

## REGULATIONS.

- 1.—Students entering are requested to register their names and pay one half of the Term bill; the balance at the middle of the Term.
- 2.—Every student is requested, on entering, to give the Principal information in regard to the following particulars: Whether he designs fitting himself for a Teacher; what length of time he designs remaining in the Institution, and whether he desires to pursue the regular course for Graduation.
- 3.—Students who have never been employed as Teachers, are requested, before presenting themselves to County Superintendents for examination, to make known their intention to the Principal.
- 4.—Students boarding in the building are requested to provide themselves with *slippers*.
- 5.—The hours regularly assigned to study are to be faithfully devoted to the preparation of the exercises required.
- 6.—All students are requested to attend the morning and evening Chapel exercises; the evening Chapel exercises however are voluntary on the part of those who do not board in the building.
- 7.—The study hours during the year are as follows: A. M., 8 to 12; P. M., 2 to  $4\frac{1}{2}$ , and from Evening Chapel (7 o'clock) till  $9\frac{3}{4}$ . The retiring hour is  $9\frac{3}{4}$  in the evening.
- 8.—No verbal excuses are received for absences from Chapel exercises or from any class exercises; but cards of excuse will be granted by the proper authority where satisfactory reasons are given. These cards should be obtained before the absence when practicable. All students connected with the institution, whether boarding in the building, in clubs or private families, wishing to leave town, are requested to obtain a card from the Principal, stating the time they are to be absent. These cards are to be given to the Registrar.
- 9.—Each student will be held accountable for any disturbance or damage in his room.
- 10.—After rooms are assigned no changes must be made either in Term time, or at its close, except by permission from the Principal.
- 11.—Students will not visit the dining room, at any other time than meal time, the wash room, or the music rooms, without permission.

12.—Students are kindly requested not to leave the tables during meals except for good reasons, and then only by permission from ladies sitting at the head of the table.

13.—Students inviting friends to meals should always give notice of the fact that seats may be provided for them.

14.—Students can enter at any time, provided they remain at least a full term, though it is earnestly recommended that they commence with the opening of the terms.

15.—Students wishing books for use in daily recitations, or wishing to pay bills, are requested to attend to this business at the close of the P. M. session of school.

### DISCIPLINE.

This Normal School is intended to be a self-governing institution. The persons to whom it claims to offer decided advantages, must of necessity be those who well understand what is requisite in order that the largest return may be received by them for their outlay of time and money. If any, through inadvertency, should give evidence that they had mistaken the school in this respect, there would be no hesitancy in granting them a perpetual furlough.

### TEXT BOOKS.

The most of the books used in the Institution are rented to the pupils.

Text Books used: Robinson's and Greenleaf's Arithmetics; Greenleaf's Geometry and Trigonometry; Kerl's and Brown's Grammars; Shaw and Allen's Comprehensive Geography; Warren's Physical Geography; Hitcheock's Physiology; Quackenbos' Composition and Rhetoric; Lossing's Histories; Wells' Natural Philosophy; Steele's Chemistry; Steele's Astronomy; Gray's Botanies; Agassiz's Zoology; Wells' Geology; Upham's Mental Philosophy; Wilson's General History; Shaw's English Literature; Greenleaf's and Robinson's Algebra; Alden's Science of Government; Townsend's Civil Government; Woodbury's Method with German; Fasquelle's French Course; Harkness' Latin Grammar and Reader; Frieze's Virgil.

Many other books are used for reference. Copies of all the modern, and very many of the older text books, are constantly kept within reach of the pupils. Classes are frequently drilled for a time in different books from the ordinary course. As far as possible *principles* and not books are taught.

It is recommended that students take with them whatever Text Books they have.

## MUSICAL DEPARTMENT.

The object of this department is to furnish a solid Musical education, in all its branches, practical and theoretical, to those desirous of fitting themselves for the profession, either as teachers or performers.

## SOCIETIES.

The "Normal Literary" and the "Athenæan" meet every Saturday evening for Literary improvement.

The members are of both sexes.

## LOCATON.

Mansfield is a borough of some six hundred inhabitants, situated on the Corning and Blossburg Railroad, thirty miles from the former place. It is easy of access from all points. From the Southern part of the State by the Philadelphia and Elmira Railroad to Troy, from which place a daily line of stages runs over the remaining distance of sixteen miles. Or by going through Elmira, the whole distance may be traveled by railroad. The difference in time and expense is slight. In either case students leaving Philadelphia in the morning arrive here at 10:30 A. M., of the next day, stopping over night at Troy or Corning. Expenses through about ten dollars.

The surrounding country is scarcely surpassed in the beauty of its scenery, and the quiet "Valley of the Tioga" presents an inexhaustible fund of knowledge in its Botanical and Geological resources.

## BUILDINGS AND FIXTURES.

The building is of brick, one hundred and fifty feet in length, by fifty feet in width. The main building is five, and the wings four stories high, including the story of sky-lights. The rooms for students are large, with extra height of ceiling, and white-washed or papered.

The building in its arrangement possesses conveniences and comforts seldom found.

The grounds about the buildings have been somewhat extensively ornamented with trees and shrubbery during the past few years.

The cost of the buildings and grounds is about thirty-six thousand dollars.

The building is now furnished with furniture of the most approved style, together with an extensive collection of maps,

charts, and works of reference. The Chemical and Philosophical apparatus, which is now quite large, will receive additions, such as may be needed to make it all that could be desired in an institution of this character.

To keep pace with the improvements in education, a Gymnasium has been erected. A valuable apparatus for the heavier and lighter exercises has already been secured.

### GENERAL REMARKS.

The Trustees are much gratified in being able to state to the public, in this their Annual Catalogue, that the success of the Institution, under its present management, has exceeded their most sanguine expectations.

The demand upon the school for rooms, calls in the most urgent manner for more buildings. It is hoped that the way may be opened ere long for making the needed additions. A building of equal size with the one now occupied is required to meet the wants.

The boarding hall is so arranged that students are grouped in families of ten or twelve at the tables. This grouping is made with distinct reference to the cultivation of social habits, and the rules and usages of good society. Each table has an equal number of each sex alternately seated around it. By this arrangement, very many of those rude and unrefined habits so often met with in boarding halls are done away with, and better ones substituted.

As in the home circle the association of brother and sister is beneficial, so in the school-room the co-education of ladies and gentlemen is deemed naturally beneficial; and we have invariably found, that the good sense of both, when under proper restraint and regulation, has developed a social intercourse which has been productive of a greater growth in mental and moral culture. The sexes when together are always under the supervision of teachers.

The three churches of the place furnish opportunities for religious worship on the Sabbath, and each student is required to attend some place of worship at least once during the Sabbath, unless for special reasons he may be excused. Among the other religious privileges of the school, are the Sabbath Morning Bible Classes and Sabbath Evening Prayer Meeting. Students are cordially invited to attend them. Much good, it is hoped, has been done by these instrumentalities.

### ANNOUNCEMENT.

The resignation of Professor ALLEN, which was tendered in February last, to take effect at the close of the present School year, rendered it necessary to re-construct the Faculty, as will be seen upon the following page. It was a matter deeply to be regretted that Mr. ALLEN could not be induced to continue as Principal of the Institution. But for reasons given in his letter of resignation, among which was his impaired state of health, consequent upon thirty years uninterrupted labor as a Teacher, he felt it impossible for him to remain.

The Trustees, at a meeting held June 4, 1869, unanimously adopted the following :

*Resolved*, That we accept the resignation of Prof. F. A. ALLEN, tendered Feb. 18, and we express that this formal acceptance has been delayed, with the anticipation that some arrangement might be made to retain him as Principal of the school, and this, of itself, indicates our appreciation of his services.
